

MEMS Education - *An Industry Perspective*

1

Panel Members

- Cleo Cabuz – Honeywell
 - MEMS Industry Group Executive Director
- Michael Judy – Analog Devices
- Richie Payne - Polychromix

2

Panel Process

- Each Panel Member will make 5 minutes of opening remarks
- Audience will be invited to suggest questions for the panel
- Moderator will organize questions and invite panel to respond

3

Some questions to consider

- What are the most important skills a MEMS person should develop before entering the work force?*
- What are universities doing well currently in MEMS Education?*
- What are the weaknesses of university programs in MEMS Education?*
- What are the needs –degree level (B.S., M.S., Ph.D.)?

** Address at undergrad and grad level*
